PROFESSIONAL SUMMARY

CS sophomore at **BITS Pilani Dubai Campus** (CGPA 8.25/10, Top 10%) with two **production-deployed** systems and merged PRs in 43k★ open-source repos. Shipped **VaultFlow** (live **multi-tenant SaaS**, **AWS EC2**), **MetaGuard** (schema impact engine via **OpenMetadata MCP** + **GitHub Actions**), and **UPS** (**Gymnasium RL** benchmark, Hugging Face). Building with **LangChain**, **RAG pipelines**, **FastAPI**, and **OWASP LLM Top 10**. Available globally from June 2026.

TECHNICAL SKILLS

Languages	Java 21, Python 3.x, SQL, Bash, JavaScript
Frameworks	Spring Boot 3, FastAPI, LangChain, React 18, PyTorch, Scikit-learn, Gymnasium, Stable Baselines 3
AI / LLM	RAG pipelines, OWASP LLM Top 10, prompt engineering, LSTM, MaskablePPO, curriculum learning
Backend	RESTful APIs, Microservices, JWT, OAuth 2.0, RBAC, NGINX, OpenAPI/Swagger, MCP integration
Data & DevOps	PostgreSQL, Redis, Flyway, Docker, GitHub Actions CI/CD, AWS S3/EC2, Let's Encrypt, Hugging Face

PROJECTS

- MetaGuard — Schema Impact Analysis Engine

github.com/AKSHEXXXX/MetaGuard
Python 3.11, GitHub Actions, OpenMetadata MCP Server, REST API

WeMakeDevs × OpenMetadata Hackathon 2026

 - Built **GitHub Actions**-triggered engine integrating **OpenMetadata MCP** + **REST API** — auto-scores **SQL migration blast radius** across table lineage and access-control surfaces, posting impact reports as PR comments with zero manual review.
 - Handled live **JWT credential rotation** mid-build; implemented **.env-based secret injection** and documented secure **CI/CD credential management** patterns.
- VaultFlow — Production Multi-Tenant Document SaaS

github.com/AKSHEXXXX/Vaultflow
Java 21, Spring Boot 3, React 18, PostgreSQL, Redis, AWS S3/EC2, Docker, GitHub Actions, NGINX

Live on AWS EC2

 - Deployed **multi-tenant SaaS** to **AWS EC2** with **row-level PostgreSQL isolation** — zero cross-tenant data exposure; **JWT** + **Google OAuth 2.0**, three-tier **RBAC**, **Redis rate limiter** (100 req/60s), sub-100ms response targets.
 - Automated **CI/CD** via **GitHub Actions**: tests against live **Postgres** + **Redis** containers, dual **Docker** images to Hub, SSH-deploy to EC2 with auto-renewing **Let's Encrypt TLS**.
- UPS — RL Environment for Cold-Chain Logistics

github.com/AKSHEXXXX/UPS · Live on Hugging Face Spaces
Python, Gymnasium, Stable Baselines 3 (MaskablePPO), FastAPI, Docker

OpenEnv Hackathon 2025

 - Designed the only open-source **Gymnasium** benchmark combining dual-objective optimisation (time + temperature), stochastic refrigeration failure, and cargo triage; trained via **3-phase curriculum learning**.
 - Achieved **0.797 overall score** across 4-tier deterministic grader (Easy 0.997 → Extreme 0.580); 30 tests covering observation shape, **action masks**, and reward hacking; served via **FastAPI** + **Docker**.

OPEN SOURCE CONTRIBUTIONS

- SolaceLabs/solace-agent-mesh

1.8k★ · Event-driven multi-agent AI framework · 3 PRs · Python

 - Resolved **memory bloat** in long-running **agent sessions** via artifact lifecycle expiry (#1269); fixed local eval harness and authored contributor onboarding guide.
- twentyhq/twenty

43.8k★ · Open-source Salesforce alternative (YC S23) · TypeScript

 - Patched **RLS validation** to skip non-editable fields on record insertion (#19201) — fixed **data-integrity bug** affecting all record creation flows.
- paypal/paypal-js

Official PayPal JS SDK · TypeScript

 - Suppressed spurious **unload-listener** registrations during **SDK bootstrap**, eliminating **permissions-policy** warnings on every page load in production apps.

ACHIEVEMENTS & ACTIVITIES

- Merged PRs into **43.8k★** (twentyhq/twenty) and **1.8k★** (solace-agent-mesh); **150+ LeetCode** problems solved; **CGPA 8.25/10**, Top 10% of B.E. CS cohort at BITS Pilani Dubai.
- Active member of **ACM**, **Google Developer Groups**, and **SUPERNOVA Astronomy Club** — organised tech events, workshops, and community developer meetups.
- Available for **Summer 2026 internship** globally · Open to relocation: **Singapore** · **Dubai** · **Europe** · **USA**
